Subject-Testimonials

1.We have purchased a number of Riello burners for M/s Suntec Energy Systems over the last 10 years

Many of these burners have functional time of over 5-10 years on them with virtually no repair or down time ,To us ,that is incredible .

2.We brought 20 units of a burners for our Boiler application in last 10 years & it is working absolutely fine to date ,we would suggest the Boiler application industry buys burners from Ms Suntec Energy Systems .
